AI Usage Declaration

AI Usage Declaration Submission Instructions

When completing your assignment, you must download and fill out the "AI Usage Declaration" form for each assignment where AI use is permitted. Once completed, convert the form to a PDF and **save it as `aud.pdf`**. Submit this PDF along with your assignment. This declaration is required to confirm your appropriate use of AI tools, and failure to submit it will result in a zero for the assignment. Ensure all information provided is accurate and aligns with the academic integrity guidelines.

AI Tool(s) Used:

- Claude
- Android IDE/Github Pilot

Purpose of AI Usage:

(Select the primary purposes for which AI was used in this assessment)

- Language refinement
- Coding structure

Details of AI-Generated Content:

> Using the Android IDE/Github Pilot, the auto-corrections would provide a lot of useful and accurate completions in which I used. I would start the code and allow for the IDE to complete it for me. I restructured everything to fit the

requirements. I then ran it through Claude to make sure I wasn't missing any information from the instructions.

Review and Refinement:

- Edited AI-generated content for accuracy
- Cross-checked AI output with reliable sources, course documents, w3schools
- Made significant changes to auto completed IDE prompts

Quality Assurance and Ethical Considerations:

AI was used as a tool to ensure professionalism and accuracy for the requirements. AI was used as a tool meant for auto-corrections. It was being utilized as a spell checker/code checker. Utilizing it while still understanding the requirements for the course.

Reflection on AI Usage:

I don't think that utilizing AI had any impact on completing the assignment as the structure needed to be completed myself in the beginning and allowing the IDE to "auto correct it" afterwards. It felt as if I was just writing a word document and msword was asking me to fix a mistake.
